ABDULFETAH SUUDI

Diligent **full stack web developer with over a year of hands-on experience in learning and building projects.** I am proficient in using Git and GitHub for version control, which I utilize daily to manage and collaborate on code. One of my key strengths is my ability to quickly learn and adapt, leveraging documentation to master new technologies and tools efficiently.

Dire Dawa, Ethiopia

SKILLS AND PROFICIENCIES

- Javascript, HTML, CSS,
- Tailwindcss, Framer Motion, Material UI, Daisy UI, Radix
- React Router, Redux/Toolkit
- Tanstack/React-Query
- React.js, Node.js, Express.js
- MongoDB, Mongoose
- RestAPI, GraphQL, Apollo
- Typescript

LANGUAGES

- English
- Amharic
- Oromo

PROJECT HISTORY

Employee Management System (Senior Project)
React.js | React Router | Express.js | Mongoose | MongoDB | Tailwind | Daisy UI | JWT Auth

A full system for a company which has landing page, external dashboard for applicants and employees and main dashboard for day to day works. Applicants signup, apply for jobs and manage their applications through external dashboard. Employees can request permission, take attendances...

Members Only (On going...)
React.js | React-Query | Redux/Toolkit | Express | MongoDB | Mongoose | Tailwindcss | Radix UI | Auth2

An exclusive clubhouse where your members can write anonymous posts. They can signin using their github or google accounts. It handles the case the user changes github username! I saw this problem on frontendmentor.io community website.

Phone Book (On going...)
React.js | GraphQL API | Express | MongoDB | Mongoose | Tailwindcss | Daisy UI

It streamlines contact management for users. And also includes additional functionalities such as easy import/export of contacts, custom fields for personalized information storage, and group management to organize contacts efficiently.

EDUCATIONAL BACKGROUND

Bachelor of Science in Software Engineering
Haramaya University | 2022 - 2026
